

NORDIC QVFR White

Flame retardant paint B-s1,d0

Nordic QVFR White offers invisible protection to B-s1,d0 for indoor walls and ceilings. Nordic QVFR White is a flame retardant paint for protection of wood based substrates.

It does not need a top coat.

Nordic QVFR is a two coat system, and has to be applied in the correct order:

Nordic QVFR 1, followed by Nordic QVFR 2 (white or tinted). It is a thin film paint, with a total of 200 μ WFT. Nordic QVFR White is water based. It is tested for the European market, with EN 13501-1 classification to **B-s1,d0**, and it has been tested for Indoor Air Emissions.
